

BURTON

DESIGN — TOAN NGUYEN

Il componibile Burton rappresenta un'innovazione progettuale del sistema divano, in cui struttura e proporzioni definiscono una nuova architettura dell'imbottito. Burton si compone attraverso un processo di aggregazione unico nel suo genere, con una piattaforma in tre diverse profondità (Burton S 96 cm / Burton M 108 cm / Burton XL 120 cm) più elementi singoli, due diverse altezze schienale (67 - 72 cm) e due diverse altezze di bracciolo (59 - 67 cm), declinabile in conformazioni molto diverse tra loro, permettendo un'ampia personalizzazione del sistema divano. Il prodotto è altresì personalizzabile attraverso differenti cuscinate e sofisticati motivi estetici, 4 tipologie di cuciture per tessuto e 5 per la pelle, che evidenziano fortemente il prodotto lungo il suo sinuoso profilo.

Tecnologia Busnelli_Lab

The modular sofa Burton represents a projecting innovation in the sofa system, where structure and proportions define a new architecture of the product. Burton is made through a process of aggregation with a unique platform in three different depths (Burton S 96 cm / Burton M 108 cm / Burton XL 120 cm), several individual elements, two different backrest heights (67 - 72 cm) and two different armrest heights (59 - 67 cm), all declinable in conformations very different from each other, allowing extensive customization of the sofa system. The product is also customizable with different cushions and also thanks to sophisticated aesthetic finishes such as four different stitchings on fabric and five on leather that strongly underline the product along its sinuous profile.

BURTON M TOAN NGUYEN

STRUTTURA —

La struttura portante è in massello, multistrati e agglomerato di legno. Il molleggio di seduta è disposto da cinghie elastiche.

IMBOTTITURA —

L'imbottitura è in poliuretano espanso indeformabile a densità differenziate senza C.F.C., rivestita con falda di fibra 100% poliestere.

Il sedile ha il cuscino in piuma d'oca, selezionata e sterilizzata, con anima portante in poliuretano espanso indeformabile a densità differenziate senza C.F.C.

BASAMENTO —

Piedino a slitta in trafilato d'acciaio.

DETTAGLI —

Disponibili elementi componibili predisposti per il collegamento. Completamente sfoderabile, esclusa la versione in pelle.

STRUCTURE —

The structure is made of solid wood, plywood and particle board. The springing of the seat is made of elastic belts.

PADDING —

The padding is in polyurethane foam in different densities C.F.C.-free, coated with a layer of 100% polyester fiber.

The seat cushion is filled with selected and sterilized goose down with supporting heart in polyurethane foam in different densities C.F.C.-free.

BASE —

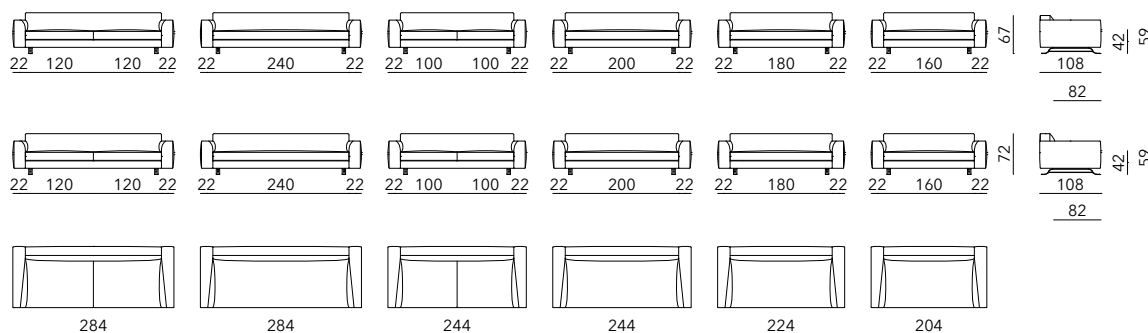

Feet in drawn steel.

DETAILS —

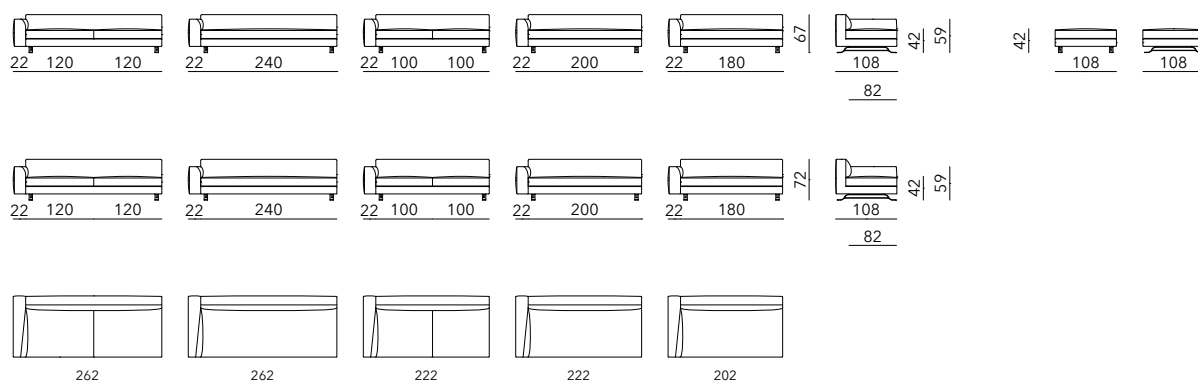

Available modular units ready for connection. Removable covers except for the leather version.
